Bombay and Delhi have been found to be more sensitive for drug trafficking.

(d) and (e) Smuggling of drugs into the cpuntry is done from across the land borders with Pakistan, Nepal and Burma. Rajasthan, Punjab and Jammu & Kashmir States are vulnerable for heroin and hashish smuggling, as also Mizoram, Manipur and Nagaland for heroin smuggling. Indo-Nepal border is sensitive for ganja and hashish. Stray incidents of smuggling at other sectors of the borders also take place from time to time. The Narcotic Drugs and Psychotropic Substances Act, 1985 as amended in the year 1988 and the Prevention of Illicit Trafficking in Narcotic Drugs & Psychotropic Substances Act, 1988 serve as powerful tools in combating illicit drug trafficking in the country as also drug smuggling from across the borders. The penal provisions are very harsh. The drive against drug smuggling which is a continuous process in which all the enforcement agencies as well as the B.S.F. and the State Police are involved is being closely monitored. The Narcotics Control Bureau, the nodal agency in the matter, has been strengthened and the State Governments and Union Territories have also been asked to strengthen their enforcement agencies.
